Document Body

I was never that involved with this one - Boris was working with RB2 on spill issues, is all I recall. As far as I know there was little/no response from RB2 on that one (I think this is the one they said, "if you think that's bad, you should see the spills in _____ County where you can't drive through the sewage, it's so deep...").

And Boris may get back to you after his travels. In the meantime, I am sending this along to Mark, as he may know more about the SCWA investigation.

By the way, I hear rumblings about spills and lack of enforcement with Sewer Authority Mid-Coastside, again.

Best, Greg

Mark, Boris and Greg - see the attached complaint against the Sonoma County Water Agency. I vaguely recall that your office was looking at SCWA. What is the status of your investigation? Has there been any RWQCB enforcement? Who is the contact at RB1?

Here at EPA we're trying to decide how to react to this complaint. Although it would be difficult, we have the option of jumping in on this case. We would consider it if there are unresolved violations and we thought we could steer the case to a satisfactory resolution. We've not been happy with the consent decrees in some previous River Watch cases. Of course we want to consult with you and RB1 before we make any decisions.

Another Jack Silver complaint

<<SFX1EEF.pdf>> Here's another Jack Silver complaint that just
came in
today. This time he has sued the Sonoma County Water Agency.

Justin
